The complete range of 68 Artist Acrylics excluding metallics (packed by l) Series A till E

2500 ml

4 Artist Acrylics (packed by l) Series A and B

Ara Artists Acrylics are formulated to give a smooth brusable colour with intensity and brilliance. These colours are made of 100 % acrylic emulsion combined with lightfast pigments.

The strong adhesion of an acrylic binder makes these colours suitable for many applications and surfaces. Finished sheen can be controlled with the use of Ara mediums
